- ✔ Digests Raw Sewage
- ✔ Eliminate Septic Odors
- ✔ Digests 100lbs per Day
- ✔ Pennies Per Day
- ✔ Liquefies septic Solids
- ✔ Powerful Septic Treatment

AmbionTreatWare

NT-MAX Industrial Strength Septic Treatment Repairs Clogged Septic Systems and Completely Restores Your Clogged Drainfield

Septic treatment with Billions of bacteria that double in numbers ever 30 minutes to absorb and digest Sludge, Grease, Paper and Solid Waste that clogs your septic and drainfield systems.

Before NT-MAX*

After NT-MAX*

Our Industrial Strength Formula Contains Higher Bacterial and Enzyme Counts than Any other Septic Treatment on the Market!

Commercial Grade Bacterial Enzyme septic treatment formulas were used to treat the Galapagos Island Oil Spill in 2001 and the Exxon Valdez Spill of 1989. We Guarantee that our products are the strongest septic treatments on the market and are backed by over 70 years of research and development.

Why septic tank and drainfield systems clog

Clogged septic and clogged drainfields are difficult to detect and if your system is not properly treated, it will at some point fail. Most untreated systems fail due to problems in the drainfield where the subterranean lines and soils get clogged with biomat (black tar-like sewage residue) and sewage. The sewage water has no place to go and waste is then forced back into the septic tank, up through your pipes and into your home! When there are not enough bacteria in the septic tank, proper digestion can not take place and you need to add a bacterial septic treatment to your system to avoid sewage accumulation in your tank and field. Naturally occurring bacterial strains are killed off by the use of household chemicals such as bleach, paints and other harmful products that wind up going down your drains. NT-MAX Septic Treatment bombards your system with over 900 billion bacteria per gallon, quickly digesting waste at up to 100 lbs per day!

Sludge buildup results in loss of $\frac{1}{4}$ " - $\frac{1}{2}$ " of space every 4 years along the walls of your pipes, limiting the amount and rate of sewage flowing through your system. Using NT-MAX Septic Treatment on a regular basis assures that buildup does not occur. The bacterial

Septic Treatment with 900 Billion sewage-digesting bacteria & enzymes are 100% guaranteed to safely eliminate grease, paper and solid waste. Helps eliminate the causes of clogged septic and drainfields, bad bacteria and odor.

cultures introduced into your system by NT-MAX Septic Treatment are laboratory produced and tested to assure premium quality and are guaranteed to be non-disease causing and non-hazardous. The specific types and volume of bacterial strains developed by our laboratories, especially the anaerobic cultures necessary to combat difficult wastes such as grease and paper, have been developed over 70 years and are the most effective means of dissolving wastes available.

NT-MAX Septic Treatment can save you tens of thousands of dollars in costly repairs and prevent you from having to replace your septic system, which can cost \$10,000 to \$70,000 or more to repair or replace. The most powerful Septic Tank Treatment for Clogged Septic and Drainfield Systems

Product Info

- Maintains and cleans commercial/residential systems: septic tanks, grease traps, sewers, drains, RV's, cesspools, drywells, lagoons, outhouses, holding tanks, aerobic/mound, lift station and any other type of system.
- Reduces and eliminates sludge, scum and grease in pipes, tank, cesspool, lateral lines and drainfield.
- Industrial strength: strong enough to eliminate pump-outs, reverse backups, clogging, odors and surface water.
- Out-performs all other "yeast" or "enzyme" based septic products.
- 4.5 billion bacteria per gram (millions times more than any other septic product), double every twenty minutes when they hit water/sewage.
- Highly advanced formula of aerobic and anaerobic bacterial spores, freeze dried on bran powder.
- Lowers energy, repairs and pump bills. Can save you tens of thousands of dollars in replacement bills.
- Safe to humans, pets, plumbing and the environment.
- Long lasting, doses decrease over time.
- B.O.S.S digests up to 100 lbs. of sludge/ scum within a 24 hour period.
- B.O.S.S bacteria survive and thrive in extreme temperatures. Everyday use of soaps and cleaners will not diminish effectiveness.
- Similar product was used to clean America's largest clean-up, the Exxon Valdez Oil Spill, 1989.

Our product has three main advantages over our competitors: the highest bacteria counts, patented bacterial strains that are the fastest, most effective available. The bacteria in B.O.S.S. produce enzymes and continuously digest sewage, keeping your entire system clear, clean and free of contamination.

B.O.S.S treatment comes in pre-measured bags containing aerobic (oxygen surviving) and anaerobic (non-oxygen surviving) bacteria conveniently freeze-dried on bran. We direct you to flush the contents of one bag down your commode once a month. **B.O.S.S** aerobic bacteria come to life when they touch water and digest the top layer of the cesspool or septic tank called the "scum" layer (fats, soaps). The more difficult to cultivate anaerobic bacteria in **B.O.S.S** digest the lower heavier solid or "sludge" layer (see diagram below of a septic system).

Sewage digesting bacteria in **B.O.S.S** double every 20 minutes and replenish bacteria in the tank that have been destroyed by everyday use of soaps and cleaners. Through its superior enzymatic activity against specific substrates such as lipase (grease), protease (protein), cellulase (mold, vegetables and paper) and amylase (starch), **B.O.S.S** digests and dissolves organic matter, breaking down its molecular structure and recycles water, minerals and carbon dioxide back into the environment.

B.O.S.S digests up to 100 pounds of sludge and scum in a 24-hour period. With such a high digestion rate, **B.O.S.S** reduces the depth of sewage in the tank and increases the overall capacity of your tank. This process lowers the pressure in the septic tank which allows proper digestion to take place, making sure that sludge or scum does not flow into the drainfield where it clogs the drainfield pipes and soil. **B.O.S.S** reduces strain on your whole system, and increases system longevity.

According to the EPA, trouble signs in your system are difficult to detect and if your system is not properly maintained, it will eventually fail. Most systems fail due to problems in the drainfield when the drain field lines and soil gets clogged with biomat (black tar-like sewage residue) and sewage. The sewage water has no place to go. Waste is then forced back into the tank, up through your pipes and into your home! When there is not enough bacteria in the tank, proper digestion can not take place. You need to add bacteria to your system to avoid sewage accumulation in your tank and field.

Additionally, sludge buildup results in loss of $\frac{1}{4}$ " - $\frac{1}{2}$ " of space every 4 years along the walls of your pipes, limiting the amount and rate of sewage flowing through your system. Using **B.O.S.S** on a monthly basis assures that buildup does not occur.

The bacterial cultures introduced by **B.O.S.S** are laboratory produced and tested. We guarantee to be non-disease causing and non-hazardous. The specific types and volume of bacterial strains developed by our laboratories, especially the anaerobic cultures necessary to combat difficult wastes such as grease and paper have been developed over 56 years, the most effective means of dissolving wastes available.

B.O.S.S. can save you tens of thousands of dollars in costly repairs and prevent you from having to replace your septic system. It can cost from \$10,000 to \$70,000 to repair or replace your septic system.

B.O.S.S is highly effective in cesspools, drywells, and lagoons and is approved for all septic system applications. Chemical products are dangerous and cost more. With **B.O.S.S** you receive an industrial strength treatment that is safe for your family at wholesale cost, saving you the 50% retail mark-up while providing you with the best possible septic treatment for your home.
